CAREER OBJECTIVE

To obtain a challenging role in the field of Artificial Intelligence and Web Development where I can apply my skills as a freelancer and intern, contribute to impactful projects, and continuously grow through hands-on experience in a dynamic and innovative environment.

EDUCATIONAL QUALIFICATIONS

- **K. S. Rangasamy College of Technology, Tiruchengode**
B.Tech in Computer Science and Business Systems; CGPA: 8.16 (upto 2nd Semester) 2023 – 2027
- **Sri Vidya Mandir MHSS, Salem**
Higher Secondary Certificate (HSC), 86.67%, Cut-off: 180.5 March 2023
- **Sri Vidya Mandir MHSS, Salem**
Secondary School Leaving Certificate (SSLC) March 2021

INTERNSHIP EXPERIENCE

- **Tech Nuke IT Solutions** Thirupattur
Web Developer Intern July 2024-August 2024
 - : Worked on both front-end and back-end development, gaining practical experience in web technologies and REST API integration.

PROJECTS

- **GreenGlow Cosmetics Website:** A full-stack MERN-based e-commerce platform with separate panels for sellers, admin, and customers. It features secure user authentication, dynamic product management, real-time cart updates, order tracking, and a clean, responsive UI. Developed using MongoDB, Express.js, React, and Node.js.
- **ASTRA Chatbot:** An AI-powered chatbot built using Flask and the Gemini API. Features include an interactive HTML/CSS frontend and seamless deployment via Render. Designed for intelligent conversations, with future enhancements like user authentication and chat history.
- **Student Record Management System:** A Python full-stack CRUD-based web application for managing student data. Developed using HTML, CSS, JavaScript (frontend), Flask (backend), and SQL workbench for database integration. Enables seamless add, update, delete, and search operations.
- **NGO Website:** A static web portal for an NGO with modules like donation, volunteer registration, and event showcase. Developed using HTML, CSS, JS, and Bootstrap.

CERTIFICATIONS

- Introduction to Git and GitHub – Coursera (Authorized by Google)
- AWS Cloud Practitioner Essentials – AWS Skill Builder
- “Joy of Computing using Python” – NPTEL (Elite Certificate)
- Java Programming and Software Engineering Fundamentals Specialization – Coursera
- Frontend Development Specialization – Scrimba
